Commencement at the Western. The exercises of the Western university and college for women, at Oxford, Ohio, commenced on June 1, ending with commencement day on Tuesday. An able and inspiring address was delivered by Rev. W. P. Kane, D. D., president of Washburn college. President McKee, with earnest words of advice and encouragement, conferred the degrees and diplomas upon the class of 1901. The Nellie Tillotson Ward prize for the best work in English was awarded to Miss Jessie Martin of Dayton, Ohio, and honorable mention was given Miss Margaret Giffon of Ashtabula, Ohio, Miss Lucy and Miss Penelope Logan as students at The Western, Miss Lucy Penelope Logan is a member of the College Glee club.

NIANTIO. Miss Ella Moore gave a delightful social at her beautiful home in Niantio on Saturday evening in honor of the Epworth League. "A Pleasant Love Song" was one of the features. Authors, forbidden fruit, music and conversation were all enjoyed. The social was a success.

CARRIED A GUN. It was claimed by the Travis boys that the result was the result of a threat made by Lawrence that he would shoot one of them and they claimed that he carried a gun. At the conclusion of the above case, Edward Travis swore out a warrant charging Lawrence with carrying a gun. Lawrence denied the charge and asked for a trial and a hearing was set for Saturday but during the afternoon he appeared before the justice and pleaded guilty to the charge and was fined \$10 and costs. Then the crowd went back to turbulent Whistleville.

OTHER BUSINESS. Sallie Hunt will have a hearing before Justice O'Mara at 8 o'clock this morning on the charge of assaulting Minnie Kipp. Several plain drunks were fined the regulation fine by Justice Smith yesterday.

BASE BALL OUTING.

Y. M. C. A. Boys to Play Ball Next Tuesday.

The outing committee of the Y. M. C. A. has his an interesting program for the second outing which will occur next Tuesday night. The first outing which was held several weeks ago when the party went to the river and took supper proved a most pleasant one and the committee decided on another program for the next outing which will occur Tuesday night. Then next outing will be called a "baseball outing." The crowd will meet at the rooms at 8:15 and will then proceed to some place yet to be designated by the committee where ball games will be played between several opposing teams. At the conclusion of the games which will continue till dark the crowd will camp and cook their supper and spend the rest of the evening in various ways until time to return to the city.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for full testimonials. Address, F. J. CHURNEY & CO., Toledo, Ohio. Sold by druggists, 75c. Hall's Family Pills are the best.

Vital Statistics.

The records in the county clerk's office show that for the six months ended May 31, 1901, there were reported 182 births and 203 deaths. For the same six months last year the births were 184 and the deaths 173.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland of Arcanook, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly cured." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and croup. 25c and 50c bottles guaranteed by druggists. Trial bottles 10c. Dr. W. H. King and N. L. Keane's drug stores.

GRAVE QUESTIONS.

Some of the Matters That Engage Attention of Taylorville Aldermen.

Since the present administration took hold of affairs at Taylorville a few weeks ago, one of the most engaging questions was on giving the aldermen and city officials water from the city mains free of charge. Unknown to a number of citizens they had enjoyed that privilege until this administration came in. This spring a new bill was created, water commissioner, and Billy Kirkwood was appointed to fill it. He discovered that the aldermen were not paying water rent and asked about it. Some of the members shot back, "That's all right, Billy, be a good fellow." But Billy declined to be good and in open council meeting declared that unless there was official action taken giving aldermen water free of charge he would enforce the collection of regular rates. The members were up against it and there was no way out of the difficulty except to put themselves on record. They did that Monday night. There was a vote, four members voting for free water and four against it. Mayor Temple voted in the negative.

NEW COURT HOUSE.

Contract Let at Taylorville For \$80,000 Structure.

The supervisors of Christian county have let to Jobst & Sons of Leominster the contract for the erection of a new court house at a cost of \$80,000. The people decided to appropriate \$70,000 for that purpose but that was so long ago that by the time the plans had been prepared and bids received the price of material had advanced not a little and it was impossible to get the work done within the limit of the appropriation. Slight changes in the plans were made and Jobst & Sons cut their bid from \$82,500 and were awarded the contract. The expectation is that with the work and other work on the grounds, together with the furnishing of the building, the total outlay will be \$80,000.

Meeting of Bricklayers.

There will be a state conference of bricklayers held in Peoria on next Tuesday and Wednesday. The delegates from Taylorville will be present. The sessions, both morning and afternoon, will be held in Trades Assembly hall. At present there is no state organization in Illinois, and it is probable that for that reason the state convention has been called. All the delegates to the national convention held in Milwaukee last January, will act as delegates to the state conference. George Gabbins, president of the International Union of Bricklayers, will be in attendance and will in all probability preside over the sessions.

Starts Right.

The dealers are now figuring on putting in winter stores of hard coal. The opening price is \$7 per ton, but the dealers say that this price is not given for any length of time. So long as the price remains at its present figure with the dealers the \$7 price remains to the consumer. The dealers say that the price is likely to get a lift of 25 or 50 cents per ton any day. Last year the opening price at this season was \$6.50 per ton.

State Meeting.

The members of the Peoria chapter, D. A. B., are making final arrangements for their forthcoming meeting, which is to be held in the Peoria Women's club on Friday of this week. There are 28 chapters in the state and from each two delegates are expected, besides many visiting members. About 75 representatives women are expected from all over the state and any of them are no doubt well known women.

Boy Accidentally Killed.

The 12-year-old son of Ferdinand Uhl, residing six miles north of Blue Mound, in Muskegon township, accidentally shot himself about 2 o'clock Tuesday afternoon. He was on his hands and knees, looking down at a dog that had bitten him, intending to kill it, and was carrying a loaded shotgun for the purpose. In climbing a fence the gun was discharged and the contents entered the boy's body.

To Amend "Spit" Ordinance.

It is quite likely that the Champagne expectation ordinance will be amended in the coming few weeks by the city council. Through oversight a section making it a libelous offense to expectorate in electric cars and other public conveyances was omitted. Alderman Green, the author of the ordinance, is in favor of the amendment, as are the other members of the council.

JUDGE WILKIN CHOSEN.

As Chief Justice of Supreme Court, With Judge Carter Secretary.

The Junior term of the supreme court convened Tuesday afternoon. The first thing to come before the court was the election of a chief justice to succeed Justice C. O. Rogge. It was stated that Judge B. D. Magruder of Chicago, would be chosen for the place, as it was supposed the rule which gives this position to the justice next in order of seniority who has not served as chief justice within six years insured the selection of Justice Magruder, but on the convening of court it developed that Judge J. W. Wilkin of Danville, having served a chief justice since Judge Wilkin, and the latter was entitled to fill the place of chief justice. Judge J. N. Carter of Quincy, was chosen secretary of the court. The election of Judge Wilkin will be a source of satisfaction to his friends in this city. He was formerly in this circuit while living in Danville and presided in the local court. He was regarded as one of the best judges in the circuit.

LETTERS FROM ITALY.

Written by Louis Casale of Macon Who is in Europe on a Business Trip.

Macon, May 20.—Louis Casale of Macon is traveling in Europe on a business and pleasure trip and writes from Italy to his mother, L. Casale, as follows: I arrived here last evening after being on the road 135 hours from Hamburg. I crossed Germany and Switzerland and saw the Alps in good shape. The day was clear and pleasant. I came over the St. Gothard railway and went over the Lake of the Four Cantons to Lugano. This is the most beautiful route one can take to see the Alps. I took the boat at Lugano and went to Fiumino. Words cannot express its grandeur or beauty and I shall not attempt to. This St. Gothard railway is 137 miles long. It has 80 tunnels and 321 bridges of more than 30 feet span. At Anser, at the foot of Mt. Briston we shut out of a tunnel, on a bridge 162 feet high, spanning the Madonna valley, and gaining a view, beautiful surroundings of which will linger with one through life. Then follows a series of 17 tunnels. Three of them Pletichera, the Wallinger, and the Ligugera circular ones, and a succession of bridges, spanning the dizzy chasm of 150 feet through which the Rhine, at this point, leaps. We are then at Gossolengo, the northern entrance of the greatest tunnel in the world. Here I ate a lunch and mailed some letters. One can hardly describe these tunnels with a pen unless he be an expert. They make complete circuits, loops and cross other tracks some of which can be seen long before we pass over them directly beneath us. I was all through the cathedral here today. There were some masons repairing some of the old original parts that are hundreds of years old. I have two chips of the fine white marble as souvenirs which I picked up at their feet. It is off the old masonry.

I met my agents here today, Bilo & Edwards, agents for all Italy. Mr. Edwards sent for his private carriage and coachman and I went out over Milan with him. I will be here two or three days and will then go down to or near Naples. I am going out 30 or 40 miles tomorrow and back, and will make about the same kind of a run the next day. They speak French, English and Italian at the hotel here. They want me to come back as it is a good place to stop. Paris, Italy, May 22, 1901. I arrived here this evening. I have been on the go here for two days. I visited several towns in and around Milan and quite a number of the large farms, those owned by the wealthy people who have hundreds of servants. This labor, however, is very cheap, 50 centimes or 10 cents a day in our money. Things are quite different here than they are in America. The hotel I am in is the best one in the city of Paris, a town of 2000 or 3000 population and I am writing this letter by the light of a candle, the only light I have in my room. The floors are stone and I suppose to cold weather they use a fire place on there is one in my room, and it surely is not here for an ornament. If it is they have my permission to take it out, but I think the Lord I don't have to stay here long. I got here tonight and leave in the morning at 6:23 and go to a town where we are to have a trial of machinos. Louis L. Casale.

HARD ON THE MARSHAL.

At Metropolis He is a Favorite Target For Bullets.

Metropolis, Ill., is a dangerous place for police officers. Monday night Marshal W. E. Oakes was shot in the back, just below the hip and fatally injured by A. M. Cuvikabo, a hotel and saloon keeper. Cuvikabo, in turn, was shot three times as he fled by Marshal Oakes. The shooting took place at 10 o'clock and was caused by a visit to the hotel by the marshal, who demanded that certain women whom Cuvikabo had been harboring be sent away. Marshal Oakes having delivered his order turned to go. As soon as his back was turned, however, Cuvikabo shot him. Wheeling about Marshal Oakes brought his revolver into action, and before he fell from his own wound, he had sent three bullets into the body of his assassin and killed him. Marshal Oakes, was filling the usual duty of the night when he was killed last February while making an arrest.

THEY SEE A CHANCE.

To Capture South American Markets For Fine Live Stock.

Chicago, Ill., June 4.—At a meeting tonight at the Union Stock Yards of representatives of all the national cattle breeding associations of the United States and Canada, in conference with the officials of the International live stock exposition, resolutions were passed authorizing the selection of representatives to go to South America and prepare the way for shipments of pure-bred cattle and horses. England's recent embargo on South American cattle has had the effect to stop the purchase of English pure-bred cattle by South American breeders, and the present is looked upon by the United States breeders as a most favorable opportunity to secure the South American market for this class of stock.

June 4.

Iron Mountain, Mich., June 4.—Eight men were killed at the seventh level of the Chapin mine this morning by an explosion and suffocation from fumes of burning powder. Nearly thirty children were rendered homeless by the accident. The men were using a powder tamping machine, and it is thought they neglected to supply it with powder. The machine becoming red hot, set fire to the dynamite, and the men were stricken down by the deadly fumes before they could escape.

Seven Years in Bed.

"What wonder ever 'cured'?" Inquire the friends of Mrs. L. Posee of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but "Three bottles of Electric Bitters enabled me to walk," she says, "and in three months I felt like a new person." Women suffering from headache, backache, nervousness, sleeplessness, melancholy, fainting and dizzy spells will find it a priceless blessing. Try it. Satisfaction guaranteed by druggists. Only 50c. ELECTED SPAETH

Fred Baldwin Resigns as Treasurer of the Base Ball Club.

ASSOCIATION IN GOOD SHAPE

Stockholders Are Satisfied With Work of the Club to Date—Enter Protest Against Bloomington.

There was a meeting of the stockholders of the Bloomington baseball association at the city council room last night at which all of the stockholders were represented. President Dan Dineen offered his resignation but the stockholders declined to accept it, but the resignation of F. W. Baldwin was accepted. Anton Spaeth was elected in his place.

The work of the club and the prospects for the remainder of the season were discussed. The stockholders were satisfied with the showing of the team thus far. The club has been in first place for a week and goes north on the first trip in a week. A financial statement was made showing the association to be in excellent condition. There is money to spare to meet all the coming expenses and the outlook is the best known in baseball circles in this city for years. In fact it was never better. There is a much deeper interest in the game than ever before.

Another matter discussed was the ready tactics of the Bloomington club. The exhibition given by McGraw and Egan in Wednesday's game was condemned. It will be remembered by the spectators that when Egan was second base an effort was made to catch him by first. The effort was made by McGraw and Egan. McGraw was caught in the act. McGraw was caught in the act. McGraw was caught in the act.

Rock Island Beats Davenport.

Rock Island, Ill. June 6.—Lunching this was the game for the locals. The score:

R. I. E. 10 0 0 1 0 2 2 0 10 1
Davenport 0 0 0 0 0 0 0 2 10 2
Batteries—Rock Island, Kraus and Teter; Davenport, Wolbach and Evers.

Turner not only lost his game Wednesday but he lost money as well. He had \$15 up that he would win his game.

Speaking about the Davenport team an official of the club said: "We hear all kinds of stories about this players. When they went to Bloomington it was stated that half the team was so drunk that they had to be helped aboard the cars here. I personally know this to be a malicious falsehood for I went with the team and they were never in better condition than on that day. Moreover we know that these stories about their carousing are false. There are only two or three men on the team who drink. The majority of them are total abstemious. One or two take a glass of beer occasionally. The cranks in this town would make a book somewhat if any of our men were to figure in a scrape like that of Egan's last night. As far as possible we are seeking to make the men sober and industrious. We know, also, that there is no ill feeling among the players. They are all working together and if they lose it will not be because they have it in for one another."

During Wednesday's game a ball was lost and it was impossible for the umpire or any of the Davenport players to locate it. They agreed that Kinkaid or Thompson got it but they could not prove the claim. It is a trick of ball players to swipe balls in the hope of something getting them back into the game and mixing a play.

WHERE THEY PLAY.

The clubs of the southern end of the circuit are in the north for the first time. They play today as follows:

Evansville at Louisville.
Trenton at New York.
Baltimore at Davenport.
Bloomington at Cedar Rapids.

Knoxville does not seem to miss Tennessee. They lost right along just the same as if he was still with them.

A local banker breathed a sigh of relief yesterday when the local club left town. He said that he would never be able to get his mind on business for a few days at least.

Just after being put out of the game McGraw was kicking on the "umps" as he called him and saying what he would have done to the Davenport club if he had been permitted to remain in the box. Dan Dineen heard him and remarked: "I don't see what right you have to swell up. There is a better man in the box than you. We are the ones to kick on the 'umps'. If he had let you in the box you would win this game. You're just the kind of pig that we are looking for." The Davenport players said after the game that McGraw was undoubtedly the best pitcher on the Bloomington staff.

The Bloomington directors say that they will get the scalp of York. It will be remembered that they tried to oust every honest umpire of the old Central league.

The Davenport baseball public believe that York is the best umpire ever on the home ground. He is not always right on balls and strikes but he averages well in this particular. What is more he has nerve and does not permit the players to run over him. He impressed everybody with the fact that he wants to be absolutely fair.

WOODMAN MEMORIAL DAY

Will Be Observed on Sunday Next—Services at the Tab.

The various M. W. A. and B. N. A. lodges of the city will hold joint memorial services at the Tabernacle Sunday afternoon at 3 o'clock. Rev. J. O. Goggin will make the address. During the past year there have been six deaths in 1923 one in 144 and two in Olive Branch camp. An eulogy on each deceased member will be given by some member of their camp. W. E. Redman will act for Olive Branch. The music will be in charge of Bart Ober. This year the members will not go to the cemetery in a body, but a committee has been appointed from each of the various camps to decorate the graves in the morning. The ladies who are members of the Royal Neighbors will meet Sunday morning at 9 o'clock at K. of P. hall in the Powers block and all Woodmen and Neighbors are requested to bring flowers there at that hour.

WANTS THE THOUSAND

A Decatur Man Will Enter the Honesty Contest.

Mrs. Irving, an author, has offered \$1000 for any business man who has not told a lie within the last six months. The candidates are to be subjected to a rigid examination and must prove their case beyond question. The Chicago Tribune of Thursday, in speaking of the application for the 'do me' prize: "A Decatur, Ill., man has written to tell how well off he might have been had he taken advantage of the bankruptcy law. Instead of which he is now working for a salary."

ALL DAY SEWING BEE

Held at the Baptist Church—Fifteen Cent Dinner Served.

The King's Daughters Circle of the First Baptist church held their third annual all day sewing bee Thursday at the lecture room of the church. A number of quilts and aprons were made and from 11 to 2 o'clock a 15 cent dinner was served in the basement. Mrs. David Patterson was in charge of the kitchen, and the coffee which was donated by T. T. Springer was made by Mrs. Dilla. The tables were in charge of Mrs. Sam Montgomery, Mrs. J. E. Saxton, Mrs. Adam Souter and Miss Lillian Ores. Mrs. I. A. Buehler and Mrs. Mary Sedgwick presided in the sewing room. Mrs. Walter Huth, president of the circle had the general supervision of the entertainment. The regular meeting of the society was held in the afternoon, and routine business transacted. The dinner was good and well patronized. The proceeds including the sum from the sale of the sewing will amount to about \$70. Six of the quilts which were on sale were placed by Mrs. S. A. Chaffey who is 84 years old.

Dr. Thomas in Peoria.

The Peoria Herald-Examiner of yesterday printed a fine two-column likeness of Dr. E. H. Thomas of Argenta and had this to say of him:

Dr. E. H. Thomas one of the newly appointed trustees of the Asylum for the incurable insane, resides in Argenta. He was born in Yorkers, N. Y., in 1859, and graduated from the public schools there. He attended the state normal school at Albany and afterwards taught in the public schools of his native city, until able to attend Columbia college, from which he graduated in 1883. He practiced medicine in Yorkers until 1893, when he came to Illinois, and has since been in active practice at Argenta, Macon county.

Dr. Thomas has always been a republican and has taken an active interest in politics. At present he is chairman of the Macon county republican central committee and chairman of the electoral college committee. He was a member of Governor Yates' steering committee during his campaign for the nomination, and a delegate to the state convention in his interest. He is Macon, an Odd Fellow, a K. of P., and an Elk.

CAPTAIN FISK IS DEAD.

Prominent Lincoln Resident and Attorney Died From Cancer Wednesday.

Captain Franklin Fisk, a prominent attorney and resident of Lincoln for 35 years, died at his home of cancer. He was 62 years of age and was born on a farm near Fayette, Mo., February 10, 1859, coming to Lincoln in 1887 to complete his law studies. During the war he served as captain of Company H, Fourth regiment of cavalry, Illinois volunteers. In service he took part in the capture of Fort Henry, Fort Donelson, the battle of Shiloh, the siege of Corinth and advanced into Mississippi under Grant.

Captain Fisk was elected in 1895 a member of the first city council of Lincoln. In politics he was a Whig up to 1890, but since an eye witness to the United States marshall border police's acts, at Lawrence, Kansas, he became and thereafter remained a republican.

WONDERS OF HAWAII

Scientists to Study Bird and Insect Life of Islands.

Many Rare and Beautiful Species That Are Fast Becoming Extinct Before Advance of Civilization.

A scientist from the Smithsonian Institution is to accompany the expedition from the United States fish commission on its trip with the Albatross to Hawaii. W. H. Ashmead, curator of the department of entomology of the national museum, has been selected for the work. It is necessary that some account be taken of the natural history of Hawaii, for conditions are changing so rapidly under the advance of civilization that in a few years the rare species of birds, insects and flora will be submerged in new varieties or become extinct.

So far little attention has been given by our government to any except the main island of the group, so it is the intention of the party in charge of the Albatross to visit Maui, Oahu, Kauai (the garden island), Molokai, Lanai, Niihau and Kahoolawe.

Mr. Ashmead expects to receive some of the rare beetles for which certain of the islands are noted from the English sparrow, which is accountable to some extent for the decrease in some and beautiful birds that were once to Hawaii as the gold fields to Alaska.

Insect life in the islands is both rare and beautiful, and the national museum already has thousands of species in the files, the study of which has contributed millions of dollars to the country in saving crops of fruit and grain through learning the habits of pests and introducing birds for their destruction.

The birds of the islands were once so rare and beautiful that a few feathers from some of them were exacted in lieu of other tax and were exacted by the chiefs for the purpose of making state robes.

Only one rare cloak of feathers, worn by the last king on state occasions, is said to be in existence, and it is looked upon with superstition and awe by the people of the island.

Police of Stockholm Suppress a Book Entitled "The Life of Abdul Hamid."

It was hardly to be expected that Sweden would be anxiously concerned about the feelings of the sultan of Turkey, yet the police of Stockholm have for the past week been busy raiding bookshelves and searching homes of suspected purchasers of the book entitled, "The Life of Abdul Hamid," a work published two weeks ago.

The representative of the police at Stockholm naturally protested against the suppression of this book, but the nation's thing is the defence shown by Elmer Louhen, the Swedish minister of justice. He sent detailed orders to condemn all copies of the book and to demand the names of the purchasers and ordered the sellers to secure the return of the book within 48 hours. If the party refused he was told that he would be prosecuted as "a consumer of sequestered goods," and that he would be arrested. The work is a translation of a German book which Emperor William has hitherto omitted to suppress.

Start on Long Voyage in Canoe. Capt. Voss, of Victoria, and Norman Lutton, a newspaper reporter, left Vancouver, B. C., the other morning in a 38-foot canoe to cross the Pacific ocean. They expect to reach Sydney, Australia, about Christmas. The canoe is nearly five feet wide and decked in nearly the whole length. It has three masts. The two voyagers expect to do a good deal of hunting among the South sea islands to replenish their larder. They carry a short iron stove and complete cooking outfit, with coal as ballast. They will stop at Honolulu and New Guinea and other islands. They will stay at Sydney and Melbourne for several weeks and will then set sail for Delagoa bay, in South Africa, where they will also spend some time. Then they will go to England, exhibit their strange war canoe and the trophies they will naturally gain in two years of travel, and then will return home.

Plans for Antarctic Expedition. At the annual meeting of the Royal Geographical society at London, Sir Clements Robert Markham, the president, said that all the preparations had been made for the forthcoming antarctic expedition. He said that he had arranged that the British sphere of work should be the Victoria and Ross quadrants, and that of the German expedition the Enderby quadrant. Assuming that the exploring period would consist of two navigable seasons and one winter, the ice pack should be sighted in December, 1901. According to present arrangements the Discovery, the British ship, will return to LITTLETON, New Zealand, in April, 1902, where she will recruit her crew, and take on a fresh supply of provisions. She will sail for home in August, 1902. The society's medal was awarded the duke of Abruzzi.

Reforms in Porto Rico. The Detroit Journal kindly points out that the Porto Ricans, if deprived of the privilege of indulging in cock-fighting, can amuse themselves by looking after their flocks. They can also allow their children to use air-guns and giant firecrackers, remarks the Chicago Tribune. There are plenty of civilized ways of being barbarous.
